

VOLUME 14—NUMBER 29

Recent Operations

By Paul Hardin

Town elections. Bean planting. School opening. Foot ball games. It sounds like a lot of things are starting to happen in the Lake Okechobee region. Well, after all, guess it's time for something to tear loose. We've had a rather quiet summer. Plenty of time to catch up with our fishing and vacationing.

Belle Glade held its annual election Tuesday and Arthur Wells was the new mayor. Walter Greer, Hugh Bratley, A. E. (Slick) Kirkham and J. H. Chambliss are the new members of the council. Hamp Holway is the hold-over member on the council. The boys took their seats Wednesday night. All promised the citizenry of Belle Glade a business-like administration. I believe they will live up to their promise. All the boys know something about the way a town should be operated and with Arthur Wells as the directing hand I don't see any reason why in two years should not make history in Belle Glade.

Up until last Saturday night there were about 1500 acres of beans planted for the early fall crop. I haven't time to check up this week and see how many acres are being planted today. I know that a lot of bean seed is going to the ground. I am sure that with favorable weather Walter Hull will start picking about the fourth or fifth of October. Lemmie Stuckey, who has 60 acres that should come in at about that time. The P. M. Cate concern has some beans on the market a little ahead of the others.

Next Monday marks the opening of the school in the Lake Okechobee region. The school is well equipped and the teachers are ready to start. Health authorities are mandatory in their ruling that students must be in the county for two weeks before they enter school. This is a good ruling. After all some contagious disease could break out from a school and it would be better to be safe than sorry.

At the Rotary club in Pahokee yesterday the program was given over to Constitution Week. Attorney J. L. Chapman of West Palm Beach was the speaker and delivered an interesting speech. Roscoe Baddock of the Belle Glade was guest speaker. Mrs. J. H. Walker was at the piano and the Rotes actually made the rafters ring with their Rotary and patriotic songs. Dr. William E. Lewis, newly elected county physician, and Mrs. Emma Fultz of the welfare department, were guests at the luncheon.

One week from tonight and Coach Frank Hobson's foot ball team will be in the field for the first time this season. The kick-off is scheduled for 8:15. Frank and his boys are just back from camp and during the remaining days before the game he will busy himself in an effort to pick a starting line-up. Graduation last spring whittled down the coach's regulars. Then the Sapp boys moved to Fort Lauderdale, that took a couple of good players.

The game with Sarasota will be a tough one for the boys to open the season with and the coach worried over the outcome after checking up on the west coast. They were champions of the Southwest Florida Conference last season and have about the same line-up this time that they had last year. That sounds bad for our boys. Especially when it is taken into consideration that Hobson will have to build almost an entirely new team. The boys' season will leave the worrying to him. He's used to it.

Sunday afternoon the Pahokee diamond ball boys are going to engage the crew from Okechobee in a game. The boys from the Okechobee club are swift in action and the Pahokee boys are practiced in the art of taking them in. An absolutely excellent contest is anticipated on lay for those of you who really enjoy a good diamond ball game.

Here it is. Another one of those weeks when I just need about four or five lines to fill this column. Maybe this will be enough. I hope so.

Arthur Wells Named Mayor Of Belle Glade

Defeats W. B. Weeks By Vote of 184 to 136 In Tuesday Balloting

Arthur Wells was chosen by the citizens of Belle Glade Tuesday to serve as mayor for the next two years. He defeated W. B. Weeks by a vote of 184 to 136. Hugh J. Bratley defeated Lott Betzner by a vote of 156 to 150 for the council seat made vacant by the recent resignation of Mr. Wells.

A. E. (Slick) Kirkham, J. H. Chambliss and Walter Greer were other councilmen elected in the balloting. Mr. Kirkham was high man in the election and polled 274 votes. Chambliss 196 and Greer 144. The new council will meet on Monday, Sept. 20, at 8 o'clock. The new mayor, was the first to be given the oath of office. Hugh Bratley, who was elected for the unexpired term of Mr. Wells, was the second to take the oath. Messrs. Chambliss, Greer and Bratley were sworn in by Judge Holway. H. Holway was the hold-over councilman.

Immediately following the installation ceremonies the new council got down to business. H. T. Holway was chosen unanimously by the chairman of the group and Walter Greer was named vice mayor. Hugh J. Bratley was chosen by his colleagues as treasurer. Lott Betzner, C. A. Thompson, Frank L. Franz and Mayor R. K. Harris were the retiring members of the council.

It was announced by the council that all appointive offices will be filled at the next regular meeting which is scheduled for Wednesday, Sept. 22, at 8 o'clock. Applicants for these jobs must have their written applications in the hands of the clerk not later than 5:00 p. m. Monday, Sept. 20.

Following completion of business Chamberlain told voters that several members of the council for remarks. Mayor Wells was the first to take the floor. He promised his resignation at a birthday session at Lake Harbor Community Center Tuesday evening. The Christian Endeavor society of Lake Harbor acting as hosts for the occasion. A cake with two candles was displayed and served with linseed oil. All guests numbered 125. Point of the young peoples organizations represented gave a historical report of activities in their local leagues and endeavors. Belle Glade was the attendance banner. Other communities represented were South Bay, Clewiston, Pahokee, and Canal Point. Canal Point will be hostess for the next session. P. E. Walker, principal of the Community church, gave the address of the evening. Josephine Wood, Virginia, Lark, Gladys Eldon and Mrs. M. M. Larrick attended the forty-ninth annual Florida Christian Endeavor convention at Tampa as delegates from the Lake Harbor Community Center and were presented with a certificate and a silver loving cup. The Endeavor of their monthly reports of activities and the "wake awake society."

Young Peoples In Lake Harbor Meet

The Everglades Young Peoples Union celebrated its second birthday celebration at Lake Harbor Community Center Tuesday evening. The Christian Endeavor society of Lake Harbor acting as hosts for the occasion. A cake with two candles was displayed and served with linseed oil. All guests numbered 125. Point of the young peoples organizations represented gave a historical report of activities in their local leagues and endeavors. Belle Glade was the attendance banner. Other communities represented were South Bay, Clewiston, Pahokee, and Canal Point. Canal Point will be hostess for the next session. P. E. Walker, principal of the Community church, gave the address of the evening. Josephine Wood, Virginia, Lark, Gladys Eldon and Mrs. M. M. Larrick attended the forty-ninth annual Florida Christian Endeavor convention at Tampa as delegates from the Lake Harbor Community Center and were presented with a certificate and a silver loving cup. The Endeavor of their monthly reports of activities and the "wake awake society."

The game with Sarasota will be a tough one for the boys to open the season with and the coach worried over the outcome after checking up on the west coast. Fred L. Fisher Buys Nick's 5 O'Clock Bar

In a deal closed last week Fred L. Fisher became the new owner of Nick's Five O'clock bar in Pahokee. The new proprietor has been operating the bar for N. C. Jones since last January.

Mr. Fisher came to Pahokee from Tampa the first of the year and during the time he has been in the Lake region has gained a wide circle of friends. The new owner announced this week that the name of the bar will be changed to Dan's Bar.

Lee Asks Court To Rule On Local Law Affecting Gas Tax

\$6,000 Fund Wanted By Wakulla County Cause of Move

TALLAHASSEE, Sept. 16 (Special).—Answering Wakulla county's mandamus for continued payment of gasoline tax money, the comptroller J. M. T. today told the circuit court that he had refused to pay Wakulla county \$6,000 because "such demand was for payment of \$6,000.00 in the nature of a loan from gas tax proceeds in the sinking fund of the county."

The comptroller's answer in this suit filed this morning included a certified copy of the Wakulla commissioners' resolution asking for the money, "in the nature of a loan."

The comptroller also said the only plan for repayment of the loan was that the county be repaid from state funds under an act of doubtful constitutionality, to-wit, Chapter 1760 which act is a local act applying only to Wakulla county and which directs that the county of Wakulla be given funds now being sent to the State Road department under provision of the general act.

The State Road department is required to spend these money in Wakulla county for road work, the first, second and third preferential system. The comptroller also said that the legislature passed four different special acts dealing with gasoline money all "referring to Wakulla county or roads in which acts, according to law answer, provided he should require the State Road department to refund to Wakulla county the money received under the general law. Another of these acts merely required that future gas money be turned over to the county's general fund. A third attempt to supplement the sinking fund of the county from money now going to the State Road department, and the fourth undertook to set up a financial car in Wakulla county. The comptroller's answer quoting the statute as follows:

"SECTION 5. All funds hereafter payable to the Board of Commissioners of Wakulla county, Florida, and coming from the state gasoline taxes, or racing funds, or any other state funds shall be spent exclusively in the manner and form provided by this law unless the said supervisor should in his discretion release all or a part of said funds for any county purpose by filing a written release with the clerk of the county."

The comptroller reiterated to this court that he "has never and does not now arrogate to himself the prerogative of declaring acts of the legislature unconstitutional," but that he "does now request the court to determine the constitutional validity of the several acts dealing with his duties in reference to this money."

WEATHER

Temperature and rainfall at Canal Point, Fla., for week ending September 12, 1937.

Be sure to attend the football game between Pahokee and Sarasota next week from tonight, on Lake Field.

Danson Held On Shooting Charge WPB

Result of Affray on Okechobee Road in WPB Sunday Night

Walter T. Danson, president of the Lake Shore Supply company in Pahokee, is being held in jail in West Palm Beach pending investigation of a shooting affray Sunday night on Okechobee road in that city, in which Mrs. Victoria Amole was struck by a stray bullet. Danson is held on the charge of assault to kill his wife, with a knife. Danson was visiting at the home of Mrs. and Mrs. C. J. McGee when the shooting occurred. Bond of \$5,000, set by Judge John L. Moore Monday, was revoked later in the day and Danson held in jail.

Following the shooting Danson started to the Lake region and was apprehended at Canal Point by Deputy Sheriff Francis Cross and Pahokee Police Chief Haywood Baxter. He was returned to West Palm Beach after a slight wound in his arm was given emergency treatment. Deputy Cross said that Danson had two revolvers on his person, held a knife, and had a shotgun, a rifle and a handgun.

Mrs. Danson filed suit for divorce from her husband in circuit court Monday afternoon, alleging that her husband had threatened on several previous occasions. She charged Danson with habitual drunkenness. (Continued on Page 4)

Broward County Judge Says Parents Are Shirking Duties Toward Children

Judge George W. Todder of the circuit court at Camp Roosevelt, in his address to the judges of the county, said that the parents of the children in the county are shirking their duties toward their children. In analyzing the cause for the increase in juvenile crime throughout the county, in a speech at the Rotary club in Fort Lauderdale Tuesday.

Todder said that letting down of parental restraint has created a looseness among youth, which is leading to the temptations of modern life. The allurements to crime are vaster and the opportunities for law-breaking more numerous, today than they were a few years ago, Judge Todder said.

The judge stressed the importance of the school and the church as supplementary influences in the training of the child. Opposing teaching of the Bible in the public schools, the judge said its teaching because of its ethical standards as well as for its literary value.

Hampshire Hogs For Prison Farm

In an effort to eventually maintain a better breed of hogs at the Prison Farm near Belle Glade W. S. Grainger, superintendent, has secured several Hampshire hogs for breeding at Camp Roosevelt. He plans to develop a better breed of hogs to take the place of the 200 head of ordinary hogs now on the farm.

Convinced by experience that he can raise hogs successfully at the farm, Captain Grainger expects to be producing all the bacon needed to feed prisoners next year. The present stock will be killed off as the Hampshire line becomes established.

The hogs are pastured on bermuda and para grass and fed corn, peanuts and even guavas. The hogs are produced on a five acre tract planted about five years ago, now bearing heavily. The hogs are fed on a mixture of feed to state prisoners, has been started at the farm. Navy beans and black eye peas are grown, in addition to the usual varieties of snap beans produced in the Everglades. Practically the entire crop is raised and threshed.

Captain Grainger expects to produce 55,000 gallons of sea spray at the prison plant this season. The spray is produced in a large tank. The spray is used for the purpose of killing insects. The spray is used for the purpose of killing insects.

Canal Point W. M. U. Elects New Officers

The Baptist W. M. U. met at the home of Mrs. G. Lawton Sims in Canal Point Monday afternoon. Mrs. F. E. Watson, president, was in charge of the business session. Election of new officers for the year was held. Plans were discussed for the week of prayer to be held in October.

Mrs. Harry Cross, Mrs. F. E. Singletary were received as new members. Delicious frozen salad, pineapple juice and crackers were served by Mrs. Sims.

New officers were: president, Mrs. McCrea; vice president, Mrs. Floy Watson; second vice president, Mrs. M. F. George; third vice president, Mrs. S. B. Jordan; secretary-treasurer, Mrs. J. S. Chastain.

Those present: Mrs. Lee Kimball, Mrs. G. L. Sims, Mrs. J. S. Chastain, Mrs. A. R. Chastain, Mrs. T. M. Chastain, Mrs. F. E. Singletary, Mrs. Harry Cross, Mrs. M. F. George, Mrs. S. B. Jordan, Mrs. J. S. Chastain, Mrs. F. E. Singletary, Mrs. W. Strickland.

Celo Warehouse To Open Pahokee

Pahokee is to soon have another soft drink warehouse. John O. Bonnell representing the Celo Manufacturing company of Fort Myers, announced that he had leased the warehouse next door to Cuthberts garage. The warehouse will be used for the storage of soft drinks. The warehouse will be used for the storage of soft drinks.

Bonnell plans to move his family to Pahokee in the near future. He stated that soft drink will be manufactured in Fort Myers and trucked to the Pahokee warehouse from which distribution will be made.

Power Company To Give Many Prizes

Prizes aggregating \$40,000.00 will be distributed in the "best letter" contest now being sponsored in this section of Florida by the Florida Power & Light company, according to an announcement made today by H. L. Lapp, local manager. Letters to be entered in the contest must be received by the company on or before September 27th.

The new building will be of corrugated iron construction and will be 50 by 110 feet. It has been leased to the Wilson and Toomey, present plans call for construction of the building ready for occupancy by the first day of October.

The Jacksonville concern will handle seed and fertilizer as well as line of insecticides.

Hull Builds New Seed Warehouse

Workers are busy this week under the direction of A. M. Henderson, principal, building a new seed and fertilizer warehouse for Walter G. Hull on land purchased from the Gulf Oil corporation in Pahokee. Mr. Hull purchased the land through C. A. Bailey, Pahokee realtor.

The new building will be of corrugated iron construction and will be 50 by 110 feet. It has been leased to the Wilson and Toomey, present plans call for construction of the building ready for occupancy by the first day of October.

The Jacksonville concern will handle seed and fertilizer as well as line of insecticides.

Mrs. J. M. Watson to start kindergarten Sept. 27th. Mrs. J. M. Watson announced that she will open her kindergarten at the school building in Canal Point Monday, Sept. 27. Those interested in sending their children should get in touch with Mrs. Watson before that date.

Plantings Are Heavier With Good Weather

Planters Are Running Regularly With Favorable Weather in Glades

Favorable weather conditions in the Lake Okechobee farming region are cause for heavy plantings at this time. Growers in every section are planting regularly and it is impossible to make an estimate of the acreage being planted this week. However, brokers and farmers were unanimous in their opinion that about 1500 acres had been planted last Saturday night.

Several of the growers who farm large acreage are holding off on their plantings until the first of October. Some fear heavy rains during the month of September and others just don't make a habit of planting any seed until the first of October anyway. One farmer remarked that he could "weather" the amount of seed he would be careful to by starting in October.

Rainfall so far this year is on an average about the same as in previous years and absence of tropical disturbances leads one to believe that this section is going through a period without serious weather conditions. The labor day jinx seems to have passed without any effect on the planting. In the past growers have kept an eye on the tropical day, since storms have usually been in the making during the first week of September.

During this week another estimate of acreage planted will be made. This is done by checking the amount of seed in the local distributing houses in Canal Point, Belle Glade, Pahokee and South Bay. Indications show that a larger acreage will be planted this year than ever before.

NEW SODA FOUNTAIN AT CHANDLER SUNDAY

A new soda fountain was installed last week at Chandler's. The fountain is a modern one and is being operated by Chandler's. The fountain is a modern one and is being operated by Chandler's.

LODGE MEETING

A regular communication of Everglades Lodge No. 211 P. & M. will be held Tuesday, Sept. 21, at 8 o'clock, at the home of Mr. and Mrs. J. H. Lapp. The second degree will be compared and all M. M. are invited to attend.

Power Company To Give Many Prizes

Prizes aggregating \$40,000.00 will be distributed in the "best letter" contest now being sponsored in this section of Florida by the Florida Power & Light company, according to an announcement made today by H. L. Lapp, local manager. Letters to be entered in the contest must be received by the company on or before September 27th.

Work Is Started On Cleaning Of Canal

A speeder dredge is busy this week in the South Florida Conservancy district cleaning out the lead canal of the Chosen unit. The new work will be done on the main lateral of approximately 8,000 acres of land, all under cultivation. The work is being done as a part of the canal cleanup program started by the district.

The cleaning out of hyacinths and other obstructions from these main lateral ditches will improve the drainage of the entire area. 8,000 acres of land, all under cultivation. The work is being done as a part of the canal cleanup program started by the district.

The state road runs through the center of this unit, as well as the Florida East Coast Railway, and centered in the unit are farms 2, the Belle Glade-Chosen school, the packing houses and the Glades Electric plant.

C. F. SCOUTS TO MEET. All Canal Point Boy Scouts are urged to be present at a meeting scheduled for next Tuesday night in the Scout hut at the rear of the water plant. Plans will be made for the season's Scout activities.

Youth Saved From Drowning In Canal

Bono Greer, nephew of Nellie Greer and son of Mr. and Mrs. Allen Greer of Belle Glade, while swimming in the Hillsboro Canal, slipped and fell from the "Chosen" locks striking his head on the cement steps and cutting a deep laceration in his forehead. He also broke several fingers acting to the report of his grandfather, Walter Greer. He was rescued from drowning by nearby fishermen but did not regain consciousness until sometime Sunday. He is reported to be getting along as well as can be expected.

Reduction In Rate Is Aid To Smaller Commercial Users

A new rate for the smaller commercial establishments in the electric territory served by the Florida Power & Light company was announced yesterday by H. L. Lapp, district manager in the Glades. Material savings in electric bills are expected to result. The overall savings to commercial customers is estimated at about \$11,000.00. The rate will apply to meter readings on and after September 25th, which means that customers taking the new rate are now receiving a reduction in their bills.

Along with the new rate a special provision is being introduced as a possible incentive which will reduce cost to smaller business establishments about 25% for use of this service during months when it is most needed in Florida. Company representatives will call on the customers affected as soon as possible to make the change.

"It has always been the policy of the Florida Power & Light company to make voluntary rate reductions whenever possible," Lapp said. "It is well known that this company has never increased its rates, in spite of constantly increasing prices of other commodities, increased expenditures over increasing taxes and higher costs of materials, but on the contrary has progressively reduced its rates. This is reflected by the reported reductions in rates for all classes of electric service throughout the territory served by the company. The new combination 'lighting and power' rate, like the one it replaced, is a reduction. The rate will be made both in a flat charge and energy charge. The flat charge will be 22 1/2¢ per 100 watts for the first 100 wattage plus 28¢ for each additional 100 watts. The present flat charge is 25¢ per 100 watts. In the energy charge the block will be reduced from 15 to 6 kilowatt hours per 100 watts, with the next 18 kilowatt hours at 10¢ per 100 watts. The new block will be 3 1/2¢ a kilowatt. The reduction is expected to benefit approximately three times as many smaller commercial customers as are now being served under the old rate," Mr. Lapp said.

Frith, Talton Joyce, Johnny Kautz, Kenneth Mock, Tom Parker, Jack Paulett, Dick Redditt, Arthur Spooner, Marion Spooner, W. A. Stephens, Sidney Tillman, A. W. Waldron.

Power Company To Give Many Prizes

(Continued from Page 1)

little way the improvement in general living conditions brought about by electric service in the home," Mr. Lapp, local manager, said. "Naturally we hope that attention drawn to electric service by the contest will promote more complete electrification of homes not 100% equipped at present."

DANSON HELD ON SHOOTING CHARGE WPB

(Continued from Page 1)

temperance and extreme crudity, asked a divorce and alimony. The bill of complaint set out that Danson is worth more than \$100,000 and has an annual income of more than \$10,000.

They were married in 1920, and have two daughters, one married, and three sons, the youngest five years old.

The bill states that her husband threatened her in June, 1936, March, 1937, and June, 1937, with a gun and knife, and that she was forced to flee for her life, once leaping through a green window to escape. No direct reference was made to the Sunday night occurrence, but the bill stated that "shortly before filing this bill the defendant again threatened to kill the plaintiff and to commit suicide."

The divorce bill was filed by the Pahokee law firm of Donnell and Harris. Ballard Donnell, of the firm, said the bill was prepared prior to the Sunday night shooting.

ELECTRICITY IS NEW AND CAPABLE SERVANT FOR FLORIDA FARMERS

Electricity—a new servant to vast farming areas in this country—has been put to work on thousands of fastlands during the past year or two.

Farmers in many sections of the nation have electric lights, refrigeration, electric pump, and other electrical equipment and facilities instead of the old kerosene lamps, unsatisfactory or no ice boxes and surface wells that they had not so long ago. As in the city, electricity can be put to a multitude of uses on the farm. The Rural Electrification administration, a federal agency, through its ability to make arrangements with power companies and to facilitate the financing of construction of power lines and installation of equipment for the farmer, is responsible for this great expansion of electric power in rural areas. Reports from farmers who have employed the REA in obtaining electricity for their farms and homes indicate general satisfaction on their part. In fact, most of the farmers who have obtained electricity have signified that they would not do without it now.

Electricity in most cases has proven to be economical, efficient, and far more satisfactory than antiquated methods which preceded it. It has meant the saving of thousands of steps for rural housewives in that installation of electricity has been followed often by installation of modern plumbing facilities for the kitchen and bath. It has been found to be more efficient than other fuels in lighting the home, in heating incubators and brooders, and in many other ways.

Rural electrification is a comparatively new thing in Florida, inasmuch as the movement to electrify homes and farms did not begin until a few months ago.

But, great interest in electricity is now being manifested in rural areas of Florida and hundreds of farmers are making efforts to obtain it through the REA. This is a healthy sign—a sign of improvement in Florida farming and Florida rural life. While all farmers are probably not in a position to obtain it at this time, many of them are. And the latter will not regret looking into the matter. The county agent is the man to see about it.

Couch Trubine Pumps

Are fully covered by U. S. Patents, covering the use of an impeller, guide vanes and diffuser installed in a wood, iron or concrete housing where the flow is controlled in one to four ways by use of flash boards or gates.

The maker and user of a pump infringing such patents will both be liable for damages and will be prosecuted under the U. S. Patent laws.

Thanks!

TO BELLE GLADE VOTERS:

I desire to express my sincere thanks to all who supported me in Tuesday's election. I shall always remember this favor.

During my term of office I will make every effort to see that the city government of Belle Glade is carried on in a business-like manner.

It will be my aim, while serving as your mayor, to deal fairly and squarely with all citizens of our thriving little city.

Arthur Wells

WE'RE READY! ARE YOU?
